

# MOONS

Moons is a 2023 startup founded by students. consists of several wings. We think this is a wonderful venue for the gifted students to present their skills.It provides numerous services to the public in an efficient manner.

## Our services

### 1.MooNs ars and crafts services :

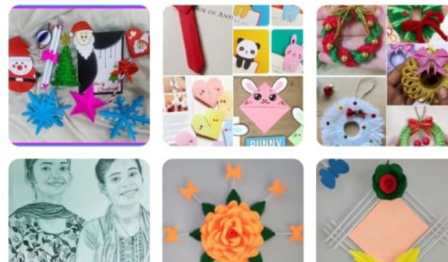

We developed an online platform called Watshaap Catalogue, where we post handmade pencil portraits, birthday presents, and craft items for décor. Customers may browse the catalogue and place orders depending on their preferences. In comparison to other online platforms, we also provide affordable custom design services.
